

ACTOR | MANUÉL

For the role of our main protagonist we are looking for a person, who has indeed swimming experience and also resembles that in his physical appearance.

Someone who is conscious about the parent topic and its message.

Manuél is a focused person, he has dedicated a lot of his time for his passion. As a former professional swimmer, he swam many international tournaments and won many trophies. Now with around 32 years, he has retired from professional swimming for a few years and conducts a swimming school in his hometown.

His relationship to his long time Partner Sofia is also found on their athletic habits, she is a runner. They do live together and never really focused on having children, maybe they never thought about it that much or haven't had the time.

Being that passionate or perhaps dedicated about swimming, after his career Manuél took on a new experience by trying to execute the Ocean's Seven, a challenge of long distance swimming, through seven different straits around the world.

The story picks up after Manuél had a few drawbacks, involving a knee injury and many appointments, which prevented him from training. While he maintains a calm and relaxed figure, Manuél is very critical with himself and wants to train at any situation for that.
