1. ÁGUAS ABERTAS

Final do Campeonato Nacional de Longa Distância

A fase final do Campeonato Nacional de Longa Distância terá lugar no próximo dia 9 de Abril de 2011, no Complexo Olímpico de Piscinas da cidade de Coimbra. Os horários e estrutura dos campeonatos mantêm-se de acordo com o publicado no Regulamento de Competições Nacionais da disciplina.

2. NOVA FILIAÇÃO

Foi aprovada em 14/02/2011, a filiação do **Triathlon Lamego Clube**, através da ARNN.

3. FORMAÇÃO

Curso Elementar de Arbitragem Natação Pura – ANALG

APTOS

André Filipe Silva Tiago	Patrícia Vanessa Rossetto
Eduardo Ferreira Marques	Paulo Cristiano Costa da Silva
Filipe José Guerreiro Santos	Paulo Jorge Brás Freire
Helyana Maria Gomez Moitalta	Ricardo Isidro Campos Gamito
Inês de Jesus Bringel	Rita Alexandra de Jesus Rebocho Amaral
João Luís Moreira Bárbara	Rui Alexandre Viegas Jorge Raimundo
João Manuel Duarte Vila Nova	Rui Ricardo André Capelo
José Paulo Neves da Silva	Sara Alexandra Pereira Lima
Maria Adelaide Ribeiro Dias	Tiago Madail Gonçalves Bernardino

4. RECORDES HOMOLOGADOS

Piscina de 25m

12/02/11	100 C JUV	Inês Fernandes	01.02,96	SCP	Alapraia (Estoril)
----------	-----------	----------------	----------	-----	--------------------

Piscina de 50m

05/02/11	100 C JUV	Joana Silva	01.06,50	LSXXI	Póvoa de Varzim
05/02/11	100 C JUV	Joana Silva	01.05,81	LSXXI	Póvoa de Varzim
06/02/11	200 C JUV	Joana Silva	02.22,61	LSXXI	Póvoa de Varzim

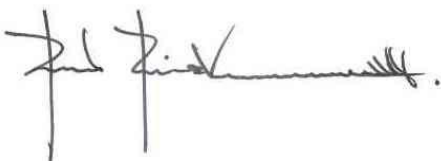

5. DIVERSOS

XXIXth Simpósio Internacional da "International Society of Biomechanics of Sport"

Realizar-se-á de 27 de Junho a 1 de Julho 2011 na Faculdade de Desporto da Universidade do Porto o XXIXth Simpósio Internacional da *International Society of Biomechanics of Sport*. Na sessão da tarde do dia 30 de Junho, terá lugar a *Swimming Applied Session*, sob a temática *Biomechanical implications on energy processing*, a qual incluirá uma sessão com 4 apresentações orais, seguida de uma outra sessão com 4 acções experimentais em piscina. Através da FPN, a Organização convida os Treinadores Nacionais de Natação Pura, interessados em assistir à mesma, a declarar intenção de presença.

Conference venue

The Faculty of Sport of the University of Porto displays modern and very well equipped facilities for sports and academic activities.

It is located at the "Asprela pole" of the University and is surrounded by the Faculty of Engineering, the Institute of Pathology and Immunology of the University of Porto (devoted to cancer research) and the Biotechnology Department of the Portuguese Catholic University. Since the University of Porto is an open institution, participants in the ISBS2011 will be very welcome in any one of these locations.

The "Asprela pole" of the University is well served of connections (metro, buses and taxis) to the city centre, the city historical and riverside centres, and the new social and business centre: Boavista.

During summer, the weather in Porto is quite attractive. It's warm (between 20 to 30° C), inviting for outdoor living, active leisure and friendship, and we have day light from 06.00 a.m. to 22.00 p.m.. Light clothes are recommended. A pull-over or a sweater may be useful at night. Sporting clothes are needed for the animated sports activities organised during the congress or for those delegates that want to perform by their own at the sport facilities available at the congress venue (exercise room, tennis, squash, swimming pool, running circuit, or sauna). Portuguese people are warm and friendly, very solicit, cooperative and peaceful. It's a safe country with low criminality, compared with most of the other European countries. Porto is, indeed, a safe city.

Scientific events

The ISBS 2011 symposium will include:

- // Invited conferences
- // Podium presentations
- // Poster sessions
- // Technical exhibition
- // Multimedia presentations
- // Applied programmes
- // Pre- and post-symposium parallel courses may be proposed

Applied programmes

Applied programmes are traditional to ISBS symposiums. ISBS 2011 will include the following Applied Sessions (other Applied Parallel Sessions may also be proposed):

- // *Swimming biophysics*
- // *Track and field — Jumps*
- // *Biomechanical modelling*

Exhibition

As an important part of the conference, a Technical Exhibition will be organized. In the Technical Exhibition area, individualized stands of different sizes will be offered to be rented at different prices by the exhibitors.

Social and cultural events

The ISBS 2011 symposium will integrate several parallel relevant social and cultural events.

Hotels and transports

Accommodations can be easily found close to the venue, or at the city centre, at very convenient prices. The organization will provide a hotels booking service and transportation solutions.

Fees

Congress Registration fee is reduced until June the 1st 2011.

	Before April 15th 2011	From April 16th 2011
Participants		
Participants	€450,00	€550,00
New ISBS members	€400,00	€500,00
ISBS/SPB members	€350,00	€450,00
Students		
Student non ISBS/SPB member	€350,00	€450,00
Students ISBS/SPB new members	€300,00	€400,00
Students ISBS/SPB members	€250,00	€350,00
Applied Session only	€50,00	€75,00
Accompanying person	€200,00	€250,00

Registrations will be made on-line at:

<http://isbs2011.fade.up.pt>

Payments should be made through bank transfer.

Participant's fee includes

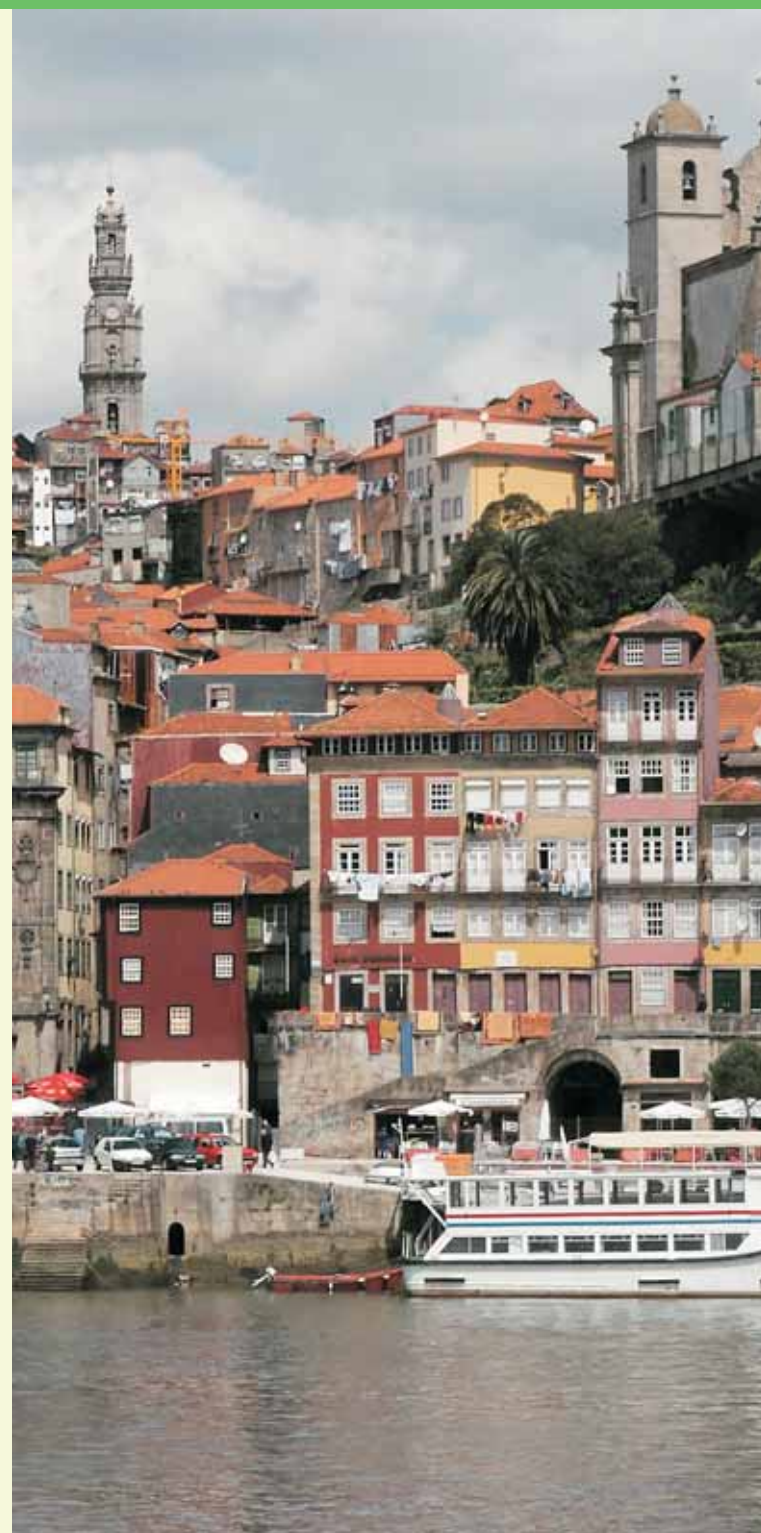

- // Participation in the Scientific Programme
- // Symposium material, including *Book of Abstracts*
- // Proceedings book: *Sports Biomechanics 29*
- // 4 lunches
- // Social programme not under extra fee, including closing banquet and barbeque
- // Shuttle service from and to the hotel

Student's fee includes

- // Participation in the Scientific Programme
- // Symposium material, including *Book of Abstracts*
- // CD of the proceedings and 50% discount on the paper based Proceedings Book: *Sports Biomechanics 29*
- // 4 lunches
- // Social programme not under extra fee, excluding closing banquet
- // 50% discount for the closing banquet
- // Shuttle service from and to the hotel

Accompanying person's fee includes

- // Social program of the Symposium, including closing banquet and barbeque
- // Sightseeing and shopping tours
- // Shuttle service from and to the hotel

Proceedings

The Proceedings Book and the Abstracts Book will be published prior to the conference in two Supplement issues of the *Portuguese Journal of Sport Sciences* (indexed in Scielo, Latindex, and Sportdiscus).

Scientific Committee and refereeing

The peer-reviewing process of the abstracts and the paper submitted to Book of Abstracts and the Proceedings Book will be guaranteed by the Scientific Committee of the conference that will be selected from the Sports Biomechanicists community in accordance with the ISBS board, and then invited.

Travel and transportation

Travelling to Porto is easy. The city is well served with an International Airport (Francisco Sá Carneiro Airport), recently classified as one of the best in Europe. There are a number of international direct flights to Porto (Oporto). An alternative is to fly to Lisbon, and then to Porto. The Airport is located at 20km from the city centre. The airport is directly connected to the city by surface metro (estimated €2,50). Taxis are also available (estimated €15 to €25, depending on the hour of the day).

Major features

In 2011, we will celebrate the 100th anniversary of Porto University and its increasing growing process among the European universities. The creation of the Biomechanics Laboratory of the Porto University (LABIOMEPE), a joint venture of Sports, Medicine, Dentistry, and Engineering faculties, is also to be celebrated.

To further increase this celebration ambiance, we are also about to accomplish the first shared organization of a sport sciences international event between the two largest sport science faculties of the country.

In synthesis, we are intending to organize a "celebration conference", also to celebrate biomechanics, sport biomechanics, and ISBS!
